RHB BANK BRINGS MOBILE ATM TO UNDERSERVED COMMUNITIES IN SARAWAK

Kuala Lumpur – RHB Banking Group (“RHB” or the “Bank”) has rolled out its mobile Automated Teller Machine (“Mobile ATM”) service to provide easy and convenient access to basic banking services to the underserved communities within the State of Sarawak.

The RHB Mobile ATM has commenced operations on 12 July 2021, serving several key areas within Asajaya and Sadong Jaya by rotation, and provides basic financial facilities including cash withdrawals, transfers, and advances, as well as loan and financing repayment/payment, along with bill payments, and mobile top-up services to local residents in remote locations.

“It is critical for us to extend financial services to the underserved communities during a period such as this, where movement is restricted and access to financial services is crucial to fulfilling their daily banking needs during this prolonged Movement Control Order (“MCO”) period. The RHB Mobile ATM will serve communities within Asajaya and Sadong Jaya by fixed rotation to allow local residents to plan their visits. We will also enforce strict Standard Operating Procedures (“SOP”) such as maintaining physical distancing while queueing, wearing of face masks, and regular sanitization of common areas to ensure health and safety of our customers,” said Jeffrey Ng, Managing Director of Group Community Banking, RHB Banking Group.

“The RHB Mobile ATM is part of the initiative by Sarawak State Government in collaboration with selected Banks to expand banking services to the rural communities in the State. This initiative is in line with RHB’s Sustainability aspirations of providing financial inclusivity and accessibility to the underserved communities,” added Jeffrey.
